About This Content

In a sharpshooting duel to the death, any advantage could make the difference between victory and defeat.

Apply highly detailed camouflage wraps to your rifles, breaking up their silhouette and blending them into the lush combat environments of WW2 Italy. Weapon skins can be used to customise all seven of Sniper Elite 4's starting rifles for use in any singleplayer, co-op or multiplayer mode.

Decent skins I guess, for those that want it.. really no need with gold camo. wish they matched the full ghillie suit. Is good Boss nice skins. It's only a cosmetic in single player mode. It becomes useful in multiplayer, the more You blend in with the enviroment the better.. emmmm Season Pass get it

freeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeeee :D. Although it only applies to the sniper rifles, it looks cool. May be useful in PvP.. Day one DLC

4.99 for 2 kinds of skins :s. Only worth it if you got it as part of the season pass.. I don't use any of these I can't imagine how they would be worth the asking price. Rebellion need to make more games and less DLC.

Where's Zombie Army 2019?

10V10 looks like you're holding a branch. The skins here do look pretty good, but for \$5? This is something that should be earned through in game progression. You will get access to these skins if you purchase the Sniper Elite 4 Deluxe Edition, which I do recommend especially on sale.. 10 V 10

Buy when is on sale !. The EXACT same DLC skins from SE3 ?

I give up :steampalmface:

Get it on sale if you must or part of the Season Pass. Buy this outright and just like those hideous Funko POPs figures.

Congratulations, you are now *Part Of the Problem.. Looks nice, way too expensive for what it is would rather it be earned and not paid for or at least around 2\$. This should not be paid DLC*
